

SENATOR DUBOIS MAKES SPEECH AGAINST SMOOT

INCIDENTALLY IDAHO STATES-
MEN SCORES MR. ROOSE-
VELT IN HIS TALK.

'KNOWINGLY AND WILLINGLY'

President Aided Mormons in Last
Election in Idaho by Sending
Taft to the West.

Washington, Dec. 13.—Senator Dubois of Idaho, in a speech in the Senate this afternoon urging that Reed Smoot be driven from his seat, charged that President Roosevelt had "knowingly and willingly" aided the Idaho Mormons in the last state election. He declared that Governor Gooding, Republican candidate for governor, was recognized as the Mormon candidate while his opponent who as chief justice of Idaho, delivered an opinion refusing a writ of habeas corpus for the three labor leaders charged with murder, stood on a radical Democratic platform opposed to Mormon dictation. Notwithstanding this, he says, the President sent Secretary Taft into Idaho to rally the Republicans to the standard of Governor Gooding. "The non-mormon citizenship in Utah and Idaho I think are entitled to the support of the law-abiding citizens everywhere in their efforts to maintain American citizenship in these Mormon states," he declared, "and if they cannot receive that they have the right to demand that the President of the United States shall not use the great power vested in him in the interests of this law-defiance, and un-American organization." He called attention to the fact that every president from Buchanan to McKinley had advocated in their messages to Congress, stringent legislation to govern the practices of Mormons. "Mark the contrast between them and the present occupant of the White House. Mormonism is a greater menace to civilization now than then." He said Senator Smoot represents the church and not the state and would do the bidding of the church before he would serve the real interests of the state or the nation."

Jilted Girl Drinks Laudanum Before
Former Admirer—Saved by
Medical Efforts.

Columbus, O., Dec. 13.—Disappointed because her former admirer, Chauncey Criswell, living on South Third street, and employed as a night clerk for the U. S. Express company had jilted her, Miss Jeannette Hates of 753 South Third street drank laudanum in his presence at 8 o'clock last night. She recovered at the Protestant hospital where she was taken in Fisher's ambulance and was afterwards taken to the city prison in the patrol wagon where she was given some excellent advice by Captain O. H. Dyer.

The girl, 19 years old, is a pretty blonde. She and Criswell she says, were to have been married in April, but during the last week his love has grown cold and last night she went to the U. S. Express office in the Union station, where he is employed, to have a final understanding. She says he refused to marry her, and she thereupon drank the poison.

NEWARK MUST WAIT FOR NEW POSTOFFICE

Wednesday's press dispatches from Washington confirmed the Advocate's statement of recent date to the effect that Newark will have to wait for some time for its new federal building. The reason given in the Washington message is "because the community has not offered a desirable site to the government. Congress at its last session made an appropriation for the land and building, and offers of sites were invited as usual. A number were received, but the treasury decided that all were unsatisfactory either in price or location or both. This means a more or less indefinite delay in the project."

It will be remembered that Secretary of the Treasury Shaw recently recommended an additional appropriation of \$20,000 for the Newark building. Congress last winter appropriated \$30,000.

Congressman-elect W. A. Ashbrook, who left for Washington Thursday, to "see the congressional wheels go round," will look into the postoffice situation though of course it is understood that Mr. Ashbrook will not become representative from this district until March 4, next.

SIX DAY BICYCLE RACE HALTED TODAY FOR TWO HOURS OWING TO A BAD SPILL

VANNONI IS HURT WITHDRAWS FROM RACE LEAVES TWELVE TEAMS

Madison Square Garden, New York, Dec. 13.—The six day bicycle race was halted for nearly two hours today as the result of a bad spill of eleven of the thirteen riders, which occurred in a wild sprint. Hollister was severely hurt and lay unconscious in his cot beside the track for more than two hours. The other riders were only slightly bruised. The accident occurred at 7:35 today and the contest was halted until 9. Hollister was at first thought to be fatally injured, but his trainer thinks that with a few hours' rest he may be able to continue the race. Twelve teams are still tied for first place with Walthour and Bedell the favorites, a lap behind.

The hard luck into which Bobby Walthour has played since the start of the race was again against him shortly after 10 o'clock when after a sensational sprint he and his team

mate, Bedell, made up the lap which they are behind, the referee ruled the gain out, so that they are still a lap behind the others. Walthour protested and at first refused to go back on the track, but later changed his mind.

10 a. m., scores: All teams, 1,441 miles, 2 laps, except Walthour and Bedell, 1,441. Record, 1,599-3, made by Miller and Waller in 1899. Vannoni, who was considerably

bruised in this morning's spill withdrew from the race today. Hollister also said that he would not return, owing to his injuries. Breton, who was Vannoni's partner, and Samuelson, Hollister's former riding mate, at once arranged to continue as a team. This leaves 12 teams in the race.

pot of coffee were found, and are now in the custody of the coroner.

Persons about Hanover put little credence in the report that Silas Kelley had anything to do with the death of his brother. It is said that just before leaving Pittsburg, David, the dead man, was confined for some time in a hospital where he underwent treatment for heart trouble, said to have been brought on by hard drinking. On his discharge from the Pittsburg hospital he was told that he would have to stop drinking and that if he kept on some time he some time he would die of heart failure. The Hanover brother stated that his brother had been trying to quit drinking for some time and was succeeding fairly well, but that he frequently had trouble with his heart so that it would be necessary to open the doors and windows and exert every effort to revive him.

The Kelley brothers have been in Licking county for scarce three months. They are said to have gone from Pittsburg to the country near Columbus, where they conducted a garden for a short time before coming to Black Hand.

Silas Kelley, the brother residing at Hanover, stated that he has three brothers besides the one in Grove City, but that he does not know just where they are located. He is said to have a step-sister in Columbus, but this cannot be verified.

A post mortem held on the remains of David Kelley, Wednesday night by Coroner Marriott and Drs. C. A. Hatch and W. E. Wylarch, revealed no weakness of the heart nor any other natural causes of death. It showed the dead man to be of unusual physique and almost perfect condition.

The suicide theory is hinted at by many who believe it more reasonable than that of murder, as Kelley had frequently said that if his brother did not return and make his home with him, that it was his intention to sell out what little he had and go somewhere else and do something.

IMPERIAL DECREE HAS DISSOLVED THE REICHSTAG

FIGHT BETWEEN KAISER AND
THE LEGISLATIVE BODY IS
ACUTE.

AMID GREATEST EXCITEMENT

Discussion of African Estimates Was
Carried on and the Kaiser's
Request Turned Down.

(Bulletin.)

Berlin, Dec. 13.—By Imperial decree read by Chancellor Von Buelow today the German Reichstag was dissolved. The dissolution is the result of growing trouble between the Kaiser and the legislative body. It followed the rejection of the estimates of the emperor on the cost of maintaining German force in Southwest Africa. The Reichstag refused the Kaiser's estimates, the negative having a majority of ten.

Amid the greatest excitement today, the Reichstag began the discussion of the African estimates. Von Buelow's effort to effect a compromise was wrecked.

CURTIS' HEARING

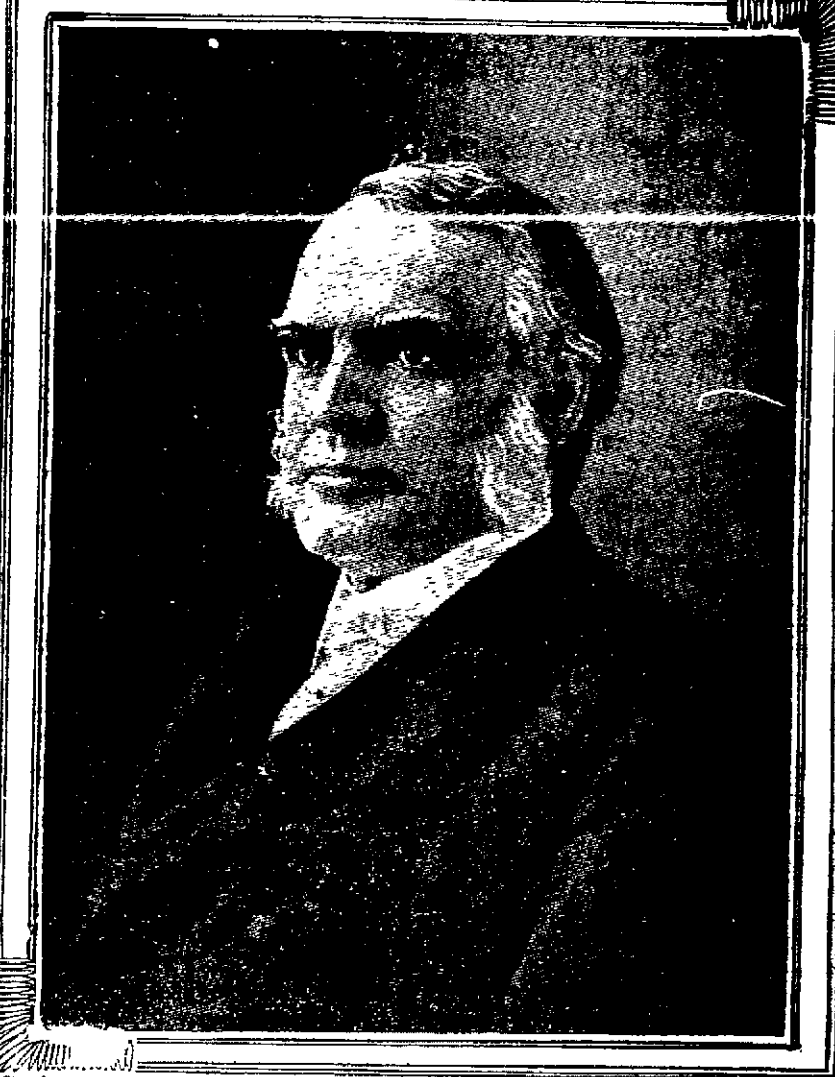

Dayton, Dec. 13.—When the preliminary hearing of Curtis was resumed today the state rested its case and Attorney Lentz for the defense, immediately moved that Curtis be dismissed on the ground that corpus delicti was not shown. The motion was overruled. Curtis will not testify in his own behalf at this hearing. Mrs. Curtis, foster mother of the prisoner, testified of a visit of officers and Dave to her home last Friday morning, and recalled the repetition by Dave in the house of his confession. "You know, Dave, what you say means the electric chair?" she testified that Prosecutor Nevin said. "If that is the case I will say I did not kill her," Dave replied.

CHAPLAIN M'CABE SERIOUSLY ILL.

BISHOP C. C. M'CABE

Bishop Charles C. McCabe of the Methodist Episcopal church, formerly of Ohio, and well known in New York, became suddenly ill on the street in New York Tuesday as told in an Advocate telegram that day. The bishop is 70 years old and rather stout. It was some time before the patient's identity was known, but when it was, the bishop's wife and daughter were sent for. "Chaplain" McCabe is suffering from apoplexy. He has a national reputation.

BISHOP HARTLEY SURE CATHOLICS WILL WIN IN FRENCH CONTROVERSY

Since Early Morning Masses Have Been Held in Churches
---Little to Indicate Grave Crisis-- Clerks Now
Reading Many Letters and Papers Seized.

Columbus, O., Dec. 13.—Rev. James Hartley, bishop of the diocese of Columbus, is confident that the Roman Catholic church will win out in the controversy with the French republic, and that, too, without the Vatican receding from its position. Discussing the situation, Bishop Hartley said today:

"The indifference of the people of Paris in matters of religion and the refusal of the people in the rural districts to take part in politics has evidently brought about the crisis which is now on."

"The people living in the country and small towns are still good Catholics, but in refusing to take part in politics, they have permitted men who are practically outside to speak for them in the chamber of deputies. These outsiders and the indifference of Paris now make up what is known as the French government. For the government to interfere with the affairs of the church is like an outsider interfering in family affairs."

"The Catholic church cannot accept or permit the lay associations proposed by the government to manage the affairs of the Catholic church in France. First, because to permit outsiders to interfere in the administration of the sacraments could not be tolerated; in the second place, these lay associations instead of being made up of Catholics, are composed of enemies of the church and to permit such organizations to say what doctrines are to be taught would be ridiculous."

"The associations are revolutionary and anarchistic, and if permitted to carry out the work suggested, schisms would be started and as Cardinal Laval says, 'It is a choice of being denounced all at once or piece-meal.'"

Bishop Hartley was in France last year and made a close study of the situation.

Dec. 13.—Since 6 this morning masses have been held in all French churches at frequent intervals. Except for evident strain and excitement, there was nothing beyond the usual crowds to bring the crisis.

Fears that the fanatics would enter the churches to create disturbances and so hasten government action were dissipated by strong police force. At all times a strong police force of five hundred men, distributed throughout the city, was on duty.

In the churches of Lyons, held in all French churches at frequent intervals. Except for evident strain and excitement, there was nothing beyond the usual crowds to bring the crisis.

the names of the officiating priests. Later 69 priests were summoned to the prefecture of police to answer in charge of saying mass without legal authorization.

This morning two laymen made the necessary legal application for the continuation of worship in the Paris church of St. Thomas Aquinas. In Toulouse such applications were made for all the churches, which thus become "authorized" and legally entitled to be used for religious purposes.

It is probable that the Vatican will disavow the acts of these laymen, but the government proclaims the Vatican "foreign power," and will pay no attention to its edicts. Today a large staff of clerks are reading and compiling the 30,000 letters and papers captured at the papal nunciature. Many of these will be published in an effort to show that high churchmen were in a conspiracy against the republic. Both sides are doing everything they can think of to win public opinion. "Persecution" and "confiscation" are the words most used by the Catholic party. "Patriotism," and "no outside interference in the affairs of Frenchmen," are the slogans of the anti-clerical party.

In hundreds of communes outside of Paris, parish priests were summoned for having said mass this morning without legal authorization. In Bordeaux laymen at the last moment sought and obtained the government's authorization. Whether or not any priests have encouraged these applications and so defied the Vatican's orders is not known. That Catholics in important centers like Toulouse and Bordeaux should have submitted to the law, makes a serious breach in the church forces.

Anxiety now centers on how far the government will proceed against defiant priests.

It is known as the one play that has a laugh in every line, and this is true. There isn't a dull second in the entire play; it simply sparkles; laugh follows laugh, complication follows complication until the audience fairly weeps with joy. The same attention to detail as characterized the initial performance will be seen here, and the cast, as the

press everywhere has acclaimed, is in every way the best ever seen in this play, the management has spared neither effort nor expense in

CHAMBER OF NORTON.

On a North Avenue local town under the direction of Prof. W. L. Norton for the benefit of the Chamber of Commerce of the North. The Auditorium Wednesday night was a success although it was not so well patronized as it deserved.

The chorus numbers were all well directed and gave good effects. The opera was exceptionally well cast. Mrs. A. C. Ludwig as Serpolette, made a decided hit with the audi-

ence. Her voice was in good condition and her every movement in accord with the requirements of the leading soubrette part. Miss Eleanor Place in the role of Germaine, Miss Irene Henthorne as Manette and Miss Hannan as Gertrude, among the girls deserve special mention as each did exceptionally clever work for amateurs. Prof. Flora in the role of Grenichoux was worth hearing. Mr. Flora's voice was in first class condition Wednesday night and he showed not a little ability as a fun maker. Prof. Nussbaum made an excellent Henri, Marquis of Corneville. He was dignified, but not stiff. The two old men characters in the opera were taken especially well. That of Gaspard, Ben B. Hoover, made a hit with the audience. The character was taken very naturally and in the second act especially, was a hair raiser. Both these parts were taken more as if by professionals than amateurs. The Bailli, Mr. Coffman, was the comedy part of the piece. It was funny and satisfactorily done. Part of the Notary was done justice by Mr. Warthen.

The work showed earnest effort on the part of Prof. Flora and he deserves unusual credit when it is considered that he played the double role of musical director and a member of the cast.

RHEUMATISM CANNOT BE CURED UNLESS URIC-O IS USED

Sudden Death, Heart Failure and Paralysis Are Caused by Poisonous Uric and Rheumatic Acids.

The disease whose cause is shrouded in mystery the affliction that is said to be incurable is commonly known as rheumatism. Show us a person suffering with this disease and you will find that at some time previous to the attack the patient suffered from some form of Rheumatism. This dangerous disease should not be neglected, especially where there is a cure within such easy reach. We refer to Smith's Specific Uric-O, a harmless compound, free from alcohol and poison, and made to cure Rheumatism only. Uric-O acts with marvelous swiftness on the blood, muscles and kidneys and cannot fail to remove all traces of poisonous Uric and Rheumatic acid from the system. Uric-O is not a cathartic, does not act on the stomach, and is the only known liquid preparation that will relieve and permanently cure Rheumatism in all most distressing forms. We want all Rheumatic sufferers to test the merits of Uric-O, therefore by addressing the SMITH DRUG COMPANY, STRATFORD, N. Y., a liberal size sample and circular will be sent free. Uric-O is sold by druggists at \$1.00 per bottle, or will be sent direct upon receipt of price. Uric-O is sold and recommended in Newark by Frank D. Hall, North Side Square.

SMART SURTOUT IN CIVET WITH LYNX COLLAR AND CUFF.

The extreme of voluminousness which marks the later mode is well expressed in this very smart surtout—or altovar wrap. A bias seam down the center back makes for a very pretty arrangement in the well defined markings of the fur, thus providing for the required fullness and bringing the fur markings on a straight line for the fronts and sides.

The civet is one of those furs that are so marked by nature as to appear somewhat conspicuous for dress purposes unless toned down with the addition of some other pelt or trimming device. Like most other innovations of fashion, the eye requires to be trained to its acceptance; and while there was but little—if, indeed, any—appreciation expressed for it when first presented, it has won for itself a place in the catalogue of things modish for carriage and automobile wear.

WILL APPEAL.

Hartje Surprised at Decision in the Famous Divorce Case.

Pittsburg, Dec. 12.—The petition of Augustus Hartje, the millionaire paper manufacturer, for a divorce from his wife, Mrs. Mary Scott Hartje, who he charged with intimacy with Thomas Madine, former coachman, is held to be inconclusive by Judge Fraser, who says: "The servants' stories of Mrs. Hartje's wrongdoing are different than those based in Mr. Hartje's petition. The story of Susie Wager, a maid, was grossly exaggerated and built up. The letters introduced are open to suspicion and are conclusive of nothing. Experts' testimony is of little value. The stealing of the said letters from Madine's rooms, as testified to, shows those who produced them to be lawbreakers. The preponderance of testimony shows the letters were not in Mrs. Hartje's handwriting, and at the trial Hartje abandoned all his charges except the one relating to Madine."

The decision does not refer to the question of alimony, but Mrs. Hartje has a motion pending in court for the granting of alimony. The two children will remain with their mother. The entire cost of the proceedings are placed on Mr. Hartje and the suit for divorce filed by his wife will be tried when it is reached in the regular order. Mr. Hartje announced he would take an appeal. "I am greatly disappointed and surprised," he said.

The cap is of dark brown suede, with a hood attachment that goes on with snap fasteners, and is caught beneath the chin with ribbon strings. It is, of course, expected that a face veil of some modish mesh be used to protect the complexion from the assaults of the wind and flying dust.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Shoop's Night Cure is the Local. Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood elements.

The "Night Cure," as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and emotion, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Selecting Christmas Gifts

It is often so hard to decide upon a suitable Christmas gift that half the pleasure of giving is taken away.

Suppose you turn from the things that give only temporary pleasure and give a bank book with the first deposit in a savings account duly recorded.

If you will come in it will be a pleasure to show you how easily you can open a savings account in the name of anyone—your boy or girl, wife or husband—in whose future you are interested.

A savings account here may be opened with as large or small amount as you please.

THE GREAT TRANSITION.

Public Property Wasted Because "It Costs Nothing, You Know."

"Hello!" said I. "What's that?" And I stopped to pick it up.

"That?" replied the boy who happened to be passing through the school yard with me. "That is nothing but a lead pencil."

"But it is a whole one," said I, "and with a rubber on the end."

"I know it," said the boy.

"What! Do you mean to tell me that you have seen this here before?"

"Yes, everybody's seen it."

"All the children in your school have seen this lying here day after day and not one boy has picked it up?"

"Of course. What should we pick it up for? There's plenty in the school-house. The town boys 'em."

And I had been given a text for a long meditation. Not pick up a whole new lead pencil? And a pencil with a rubber on it!

When I was a boy we had lead pencil slates. A boy who had a whole body's slate pencil was looked up to. He gave it up, but a lead pencil—we fought for lead pencils as the Greeks and Trojans fought for Helen. We scoured the countryside for old horseshoes to sell to the blacksmith for money enough to buy a lead pencil, and, having it, we cut our private mark on it, guarded it, kept it as our last resource in trade. Many a time a precious two inch lead pencil has turned an important jack-knife trade one way or the other. I never had but one lead pencil at a time and very often hardly that until I was fifteen years old. And these ten-year-olds scorn to pick up a whole one with a rubber! Think of it! The best eraser I had was a piece of rubber boot heel.—Henry T. Bailey in Journal of Education.

Suit Against Son.
Harrier Coffman has commenced suit in the Common Pleas court against her son, Walter Coffman, and Carrie E. Coffman. She says her husband, the late Allen B. Coffman, left a policy of insurance for \$3,000, payable to her. She says she got the money and placed it in the hands of her son, Walter, authorizing him to pay bills with it. She says Walter paid some bills and purchased a horse and lot, paying \$2,800 for it, taking the title in his own name, although the money was paid out of her funds. She brings suit to recover.

DEATHS AND FUNERALS

MRS. JOHN FELIX.
Death claimed one of the best known and most highly respected Christian women of Newark when Mrs. Elizabeth Felix, wife of Mr. John Felix, died at the City Hospital on Wednesday afternoon, where she underwent an operation some weeks ago. She was aged 68 years and two days.

The maiden name of the deceased was Elizabeth Rees. She was a daughter of David and Jane Rees, and was born in Wales. In 1847, when a mere child, she came with her parents to the United States and settled in Newark, where she has resided ever since, her parents having died many years ago. When 19

years of age she was married to Mr. John Felix, with whom she has always lived happily. They were the parents of nine children, six of whom are living and are Franklin, of this city, Mrs. Clarence White of New York City, Miss Elizabeth Felix, who lives at home, Mrs. Fred Jones of this city, Daniel Felix of Pittsburgh, and Mrs. S. Guy Jones of Owatonna, Minn. Besides these she is survived by two sisters, Mrs. Letitia Edwards, 75 Pearl street, Mrs. Sarah Howell, Chicago, and one brother, David W. Rees of West Plains, Mo.

Mrs. Felix was a true Christian woman in every sense of the word, and was possessed of a lovely character. She was benevolent and charitable in all that the word implies, and her death will be sincerely mourned by a large number of friends.

AWFUL AGONY OF PILES

Positively Relieved By The Pyramid Pile Cure.

A TRIAL PACKAGE MAILED FREE
There is no reason—surely no good reason—why any man or woman should continue to suffer with piles when a reputable company of druggists have placed in every high-grade pharmacy a positive and unfailing cure for this dread disease at a price within the reach of the poorest. They have done more. They offer to relieve the sufferer temporarily and shut him well on the way to recovery, by giving to any piles patient who sends his name and address a free trial package of the wonderful Pyramid Pile Cure in a plain sealed wrapper. There are enough of the curative elements in this trial package to greatly reduce the swelling of the affected part, to heal

much of the soreness and ulceration. After the sample is gone your druggist will supply you with a box of the Pyramids for 50 cents.

Read Mrs. Bond's letter, which tells how she suffered and was relieved, it not positively cured, after using one 50 cent box.

"I have tried your pile cure and find them all you recommend them. I am very thankful to you for ever putting them within my reach, for I have had one box and I have not used all of them yet, and I feel like a new woman today, and I tell everybody about them. When I started them I could not walk across the floor, but now I can do my work all right. My work was a burden to me before I started them, but I can tell you that I can work much better now. You can rely on me. I will tell everybody about Pyramid Pile Cure. Yours sincerely, Mrs. J. Bond, Toronto, Canada, 33 Pears avenue."

There is positively no risk or danger with the Pyramid Pile Cure, for there is nothing but curatives in the preparation. They are suppositories which placed in the affected part, act as a soothing ointment working upon the infected and ulcerous tissues, giving new life and stimulating a stronger circulation of the blood.

By the use of the Pyramid Pile Cure the patient is cured at home without losing a day's work, no matter what his occupation. The cure may be accomplished in absolute privacy. We use no names for advertising purposes without the voluntary consent of the patient.

The Pyramid Pile Cure is quick, permanent and painless. Do not delay, but send your name and address today, and we will furnish you at once with the free trial package. Pyramid Drug Co., 73 Pyramid Bldg., Marshall, Mich. The 50 cent size packages are for sale at all druggists.

Wants to Apologize to the Cat and His
Mother-in-law—Country Can
Keep on Calling.

[Copyright by McClure Newspaper Syndicate.]

AFTER dinner Mr. Bowser observed that he had had a slight sore throat all day and that he would go over to the drug store and get some chloride of potash as a remedy. This was at 7 o'clock. At 8 he had not returned. At 9 Mrs. Bowser had begun to wonder if he had been hit by a street car and how he would look walking around with a wooden leg. At 10, as she was feeling quite certain that she would hear of him next in the hospital, she heard some one putting at the front door, and after a long minute Mr. Bowser entered. In attempting to take off his overcoat he fell against the wall with a bang, and in hanging up his hat he almost pulled the hall tree over. He finally got straightened up, however, and came along to the sitting room with a bland smile on his face to say:

"Mrs. Bowser, excuse me, please. I didn't intend to shay more 'a minute, but I met some friends, you know. Was my dearie lonesome while I was gone?"

"Mr. Bowser, you have been drinking," she replied, after a long look at his flushed face.

"Only two glasses ginger ale, my dear—only two glasses. Met a feller

"I CALLED HIM A RED-HEADED SON OF A GUN."

who was taking home a jugful, and he shaid I was no friend of his if I didn't drink two glasses. Where's our old cat?"

"What do you want of the cat?"

"Sorry for the cat. I've been mean to that cat, Mrs. Bowser. I've called him names. I've thrown bricks at him. I've tried to murder him. I've got up in the night with a butcher knife to cut his throat from ear to ear. I'm sorry for it, and now I want to beg his pardon."

"You can do that in the morning. I want you to come to bed now. It is after 10 o'clock."

"Don't try to fool me, Mrs. Bowser," he laughed as he reached over and tried to pat her cheek. "It's just shaven o'clock, and I'll bet a hundred dollars to a cent on it. Do you think the cat will ever forgive me?"

"If you will go to bed."

"I hope he'll forgive me—I hope so. When he learns how much trouble I have gone through in this world mebbe he will pity me. Where's the cook?"

"In bed and asleep, of course."

"Then I want you to go and wake her up and bring her down here. I want to beg her pardon. I have shaid hard things of that girl. I have shaid that she made soup coffee and tea. I have shaid that she drank up the milk. I have shaid that she wasn't worth \$2 a year as a cook. I want to take it all back."

"But you can't do it tonight," she protested. "I hope none of the neighbors saw you when you came in."

"I shien shieven of our neighbors when I came in and asked 'em if they was feelin' weller than usual. Mrs. Bowser, is your mother here?"

"Of course not."

"Then I want to telegraph to her. I have shaid hard things about your mother. I have shaid she was an old cat. I have called her an old rip. I have shaid I hoped she would choke herself to death. One night I got up and got the crowbar and was going to kill her. I want to beg her pardon. I want to shay she is not an old cat. You get piece of paper and write it out. Shay that Mr. Bowser is shorry and will never, never do it again. Shay that he can't sleep nights for thinkin' about her. Shay that if she don't forgive me—"

"What nonsense! Mr. Bowser, I want you to come to bed."

"Go to bed at sheren o'clock! Not much! Mrs. Bowser, is 'er leeman here?"

"You know he is not. Shall I go up and leave you here?"

"I want to beg that leeman's par-

don. I shaid he cheated us in weight. I shaid he was a robber. I shaid I would like to punch his head. Poor man! I made him feel bad, and I want to beg his pardon."

"You can do that in the morning," answered Mrs. Bowser as she took him by the arm and tried to get him started. He took a step or two and then pulled back and sat down and said:

"Wanted to Apologize. And there's the milkman. What did I shay to him?"

"Nothing. You haven't seen him for months."

"Nozzings? Don't deceive me, Mrs. Bowser. I know I met 'er milkman and called him a robber. I told him his milk was half water. I called him a red-headed son of a gun. I shaid I could lick him with one hand tied behind me. I want to shue him and beg his pardon."

Mrs. Bowser sat down and picked up a book and tried to read, and after brushing tears from his eyes, Mr. Bowser continued:

"And there's you. I want to beg your pardon. I have called you names. I have shaid you tried to assassinate me. I have kicked and been mean. Can you ever in your life forgive me? If you can't then I shall go out and drown myself."

"How could you be so foolish as to drink too much?" exclaimed Mrs. Bowser as she looked at him.

"Whaz! Whaz zhat! Drink too much? Shay, now, I'm shober as a judge—two judges—five judges. Never was so shober in my life."

"Then come on to bed."

"I'll be in bed in two minutes, but I want to talk a little first. Is the coal man here?"

"You know better."

The Coal Man Too.
"Then I'm shorry. Last week I called him a liar and a robber. Yes, I did. Shays I to him, shays I, 'Shay, coal man, you are the biggest rob!'"

"But let it go until tomorrow. You can see him then and apologize."

"But he's feelin' bad over what I shaid, and I want to 'pologize tonight. If he should die tonight thinkin' I had wronged him I could never forgive myself. Yes, shir, when he brought zhat last coal I shaid to him—"

Mrs. Bowser rose up and began packing the room, and Mr. Bowser had a brief weeping spell and then dried his eyes and said:

"And I want to tell you 'bout polly-ticks. You know, I've been sayin' zhat I was goin' to run for nex' presidency? Yes, shir, I've shaid sho right along. I've shaid I was 'er only man to beat Roosevelt or Bryan. Haven't I shaid zhat, Mrs. Bowser?"

"I believe you 'em both under ten feet deep. My country calls me to do it. Listen! Don't you hear 'er call?"

"I hear a cat miauling in the back yard, and if you are not coming to bed I shall leave you here."

Won't Run For Office.
"My country calls, but she can call and be hanged to her. I am no sneak in 'er bushes, Mrs. Bowser. I am goin' to make Mr. Roosevelt or Mr. Bryan feel bad. Hear me when I shay zhat my name is Bowsher—Samuel Bowsher—and zhat I hereby and hereon absolutely decline to be a candidate for 'er next presidency on any ticket. Zhat's flat. You can bank on zhat. You never knew me to lie, did you? Well, I ain't lyin' now. No, shir, I won't be a candidate under any shircumstances."

"But you'll come to bed?"

"Under any shircumstance, Mrs. Bow-wow-sher."

"Then get up and come along."

But Mr. Bowser slowly and softly and gracefully slid out of his chair on to the floor and began to snore. Mrs. Bowser turned all the gas out but one jet and went upstairs, and as the clock struck 11 and then 12 and the crickets sang and the cats miauled and the policeman on the beat fell asleep Mr. Bowser slumbered on with only the family cat for his guardian.

Couldn't Find Him.
Sir Robert Ball is an Irishman with more than the usual amount of humor. Even when a joke tells against himself he is quick to appreciate it. Not long ago he alighted at a country railway station in Ireland, intent on a lecture, and was surprised to find no vehicle awaiting him. After a time a servant approached and inquired if he were Sir Robert Ball.

"Yes," said the genial astronomer. Then the man apologized for the delay.

"I was told," he said, "to meet an intellectual looking gint."—Pall Mall Gazette.

ALL WRONG

The Mistake is Made by Many Newark Citizens.

Don't mistake the cause of backache.

To be cured you must know the cause.

It is wrong to imagine relief is cure.

Backache is kidney ache.

You must cure the kidneys.

A Newark resident tells you how this can be done.

Wesley Rowland, express driver, living on Washington St., near Mill St., East Newark, O., says: "Many a time my back pained me so and was so weak that I could not load my wagon. If I stopped to pick up anything it was all I could do to straighten up. My back pained me so at night that I could not sleep. I would wake up again with terrible pain through the back and shoulders as if I were in a cramp. I tried liniments and various remedies but found nothing that helped me until I got Doan's Kidney Pills at Crayton's drug store. Three boxes were all that were required to cure me and the cure has been permanent. That was two years ago and I have had no trouble of the kind since."

At Palace Rink. The masquerade skating party at the Palace rink was a big success on Wednesday night. Mrs. Catherine Miller of East Newark, took the first prize for a fancy dress costume. She was becomingly dressed. Mr. Merrill Sweetzer as a Mexican took the gentleman's first prize. The biggest crowd of the season was present.

Afternoon Fire Alarm. A still alarm of fire sent in about 3:20 o'clock Wednesday afternoon, called the Central fire department to a house in the rear of St. Paul's Lutheran church, owned by the Fafel heirs. The timbers under the grate in the sitting room had taken fire and was developing into a good sized blaze when the firemen arrived. The fire was quickly put out with the aid of the extinguisher.

Miss McDaniels Injured. An alarm of fire sent in from box 41 Wednesday afternoon called the Central department to the State Dye Works, corner of North Fourth and Church streets, where a small fire had started in the ironing room. Ugly Looking Runaway. Everett Huston, residing southeast of the city, was the victim of a terrible looking runaway on East Main street shortly after noon Thursday.

Mr. Huston was driving a horse to an open carriage when the animal became frightened at a car, as it turned the Cedar street corner. The animal started to kick, and after throwing Mr. Huston from the buggy and spraining his right wrist badly, broke loose from the buggy and ran on east. It was caught near the Children's Home. The buggy was badly damaged. Mr. Huston sustained no injuries other than the sprain.

Foresters' Election. At a meeting of the Catholic Order of Foresters the following officers were elected for the ensuing year: Chief Ranger, Bernard Balber, vice chief ranger, Jacob Homer, past chief ranger, Edward McDonnell, recording secretary, William Young, financial secretary, Patrick Fitzpatrick, treasurer, James Dublin, delegate to state convention, William Young, trustees, John F. Peeney, William H. Smith, John Carr. The meeting was well attended, and the financial report showed the order to be in splendid condition financially. The installation of officers will take place at the first meeting in January.

Beginning for Money. A confidence man, clever, yet employing methods too old for Newark people attempted to work some money from persons in West Newark Tuesday. The man would call at a house, address the person who lived there by name and ask for enough money to take him to Columbus. The fellow then would ask the name of the next neighbor and when told would step to the neighbor's house and put up the old bluff about being an old acquaintance who lived in Columbus and was stranded and would be greatly obliged if they could help him to get back to Columbus. So

far as could be ascertained no one recognized the "old acquaintance" and therefore gave him no money.

Daughters of Rebecca. The Daughters of Rebekah will hold a meeting tonight and a full attendance is desired as there will be election of delegates to state assembly.

Thigh Bone Broken. Mrs. Scott Weakley of Grant street fell at a skating rink Wednesday night and fractured the thigh bone of the left leg. She was taken to the Newark Sanitarium where the fracture was reduced by Drs. D. M. Smith and Wyliarch.

A "Lighter" Lid. It was rumored Thursday afternoon that the State Association of Brewers is anticipating an action toward closer closing of the "lid," here it is learned that they are planning a movement to bring about the close of all kinds of business on Sunday, including milk wagons, milk depots, the sale of papers and the running of city cars.

Selling Fancy Work. A woman residing on Cedar street is looking up the record of a clever confidence woman who is believed to have buncoed several Cedar street women. Two weeks ago the woman visited Cedar street homes and sold chances on a piece of fancy work. She told the purchasers of tickets that she would publish the name of the lucky ticket buyer in the papers. The Cedar street women have been watching the columns of the papers, but no such notice has been printed. They now believe that all who purchased tickets were up against a "skin" game, and as the amounts in each case are small it is hardly probable that any action will be taken to bring the woman to justice. The woman is believed to have sold over \$5 or \$6 worth of tickets.

NEW CURE FOR RUPTURE

New Scientific Appliance, Always a Perfect Fit—Adjustable to Any Size Person—Easy, Comfortable, Never Slips, No Obnoxious Springs or Pads—Costs Less Than Many Common Trusses—Made for Men, Women or Children.

I Send It On Approval—You Wear It—If You Are Not Satisfied, I Refund Your Money.

I have invented a rupture appliance that I can safely say, by 30 years' experience in the rupture business, is the only one that will absolutely hold the rupture and never slip and yet is cool, comfortable, conforms to every movement of the body without chafing or hurting and costs less than many ordinary trusses. I have put the price so low that any person, rich or poor, can buy, and I absolutely guarantee it. I make it to your order—send it to you—you wear it, and if it

Jas. Britton, Cured of Rupture by C. E. Brooks.

doesn't satisfy you send it back to me and I will refund your money. This is the fairest proposition ever made by a rupture specialist. The banks or any responsible citizen in Marshall will tell you that is the way I do business—always absolutely on the square.

Here is what Mr. Jas. Britton, a prominent manufacturer of Bethlehem, Pa., writes:

"C. E. Brooks, Esq. Dear Sir—I have been ruptured six years and have always had trouble with it till I got your appliance. It is very easy to wear, fits neat and snug, and is not in the way at any time, day or night. In fact at times I did not know I had it on. It just adapted itself to the shape of the body and clung to the spot no matter what position I was in. It would be a veritable God-send to the unfortunate who suffer from rupture, if all could procure the Brooks Rupture Appliance and wear it. They certainly would never regret it. My rupture is all healed up and nothing ever did it but your appliance, Jas. Britton."

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Write me today and I will send you my book on Rupture and its Cure, showing my appliance and giving you prices and names of people who have tried it and been cured. It is instant relief when all others fail. Remember I use no salves, no harness, no ties. Just a straight business deal at a reasonable price.

GENERAL NEWS OF BUCKEYEDOM

GOVERNOR HARRIS SAYS THAT HE FAVORS SHIP SUBSIDY MEASURE

Conflicting Evidence in Curtis Hearing—Child Labor—Cambridge Forgery Case.

Columbus, O., Dec. 13.—Governor Andrew L. Harris believes in the wisdom of a ship subsidy. The governor would establish a subsidy for the encouragement of American shipbuilders, American shipowners and American seamen, but he would not give money to the benefit of the fast passenger and mail steamers exclusively, but to those freighters which carry the bulk of the nation's commerce to foreign shores. By the proper encouragement of shipowners to place in trade with South American ports a regular line of vessels, the governor believes a great step would be taken in the encouragement of commerce with the growing republics of the tropic zone.

Conflicting Evidence.
Dayton, O., Dec. 13.—In the preliminary hearing of David Curtis, the half-witted man who is said to have confessed to the crime, much conflicting evidence has been submitted. A friend of Dona Gilman who rode on the car with her on the last night she was known to be alive swore that no such man boarded the car as Curtis, while, on the other hand, a conductor swore that he saw him do so. A couple has been found who passed near the spot where the body was found on the night before the tragedy became known, and they tell a gruesome story of dim figures carrying a burden of some kind and talking in whispers.

To Discuss Child Labor.
Cincinnati, O., Dec. 13.—Delegates are here for the third annual convention of the national child labor committee, and philanthropists, capitalists, medical men, statesmen and sociologists of worldwide reputation are prominent among them. In many respects the convention is the most important ever planned by the committee, and from present indications it will be the largest so far in the history of the movement to abolish child labor. At the opening session Senator Albert J. Beveridge of Indiana will make an address on "Child Labor and the Nation."

Adulterated Tanglefoot.
Columbus, O., Dec. 13.—"If a man buys whisky, he should get it and not some adulteration," Judge Thompson said in United States court here, as he fined John J. Herman of Zanesville, O., \$2,000 and costs for rectifying whisky without the consent or knowledge of the government gauger. Herman was committed to jail until the fine and costs are paid. The court said that Herman, who entered a plea of guilty, was not cheating the government, but was robbing his customers.

Must Face Forgery Charge.
Cambridge, O., Dec. 13.—On a charge of having forged five notes, A. W. Trotman, 50, a township trustee and member of the Republican county committee, was arrested at his home at Oswego, O. Mr. Kreis, whose name it is alleged was forged to one of the notes, died about two weeks ago, and the bank informed the administrator that the note would soon be due. An investigation was made by the administrator, which resulted in the arrest of Mr. Trotman.

Depositions in Schmicklapp Case.
Cincinnati, O., Dec. 13.—French

Consul Eugene C. Pooley received an order from the French government to take depositions of Jacob Schmicklapp and Mrs. A. L. Ault of this city in the matter of the distressing automobile accident at Saint Martin de Crau, near Arles, France, in September, in which Miss Charlotte Louisa Schmicklapp lost her life. The depositions are to be used in the trial of Jean Pealin, driver of the car, with which the automobile collided. Pealin is under indictment for "homicide because of imprudence," which corresponds to a charge of manslaughter in this country.

Over Lake Erie in Balloon.
Toledo, O., Dec. 13.—A. Roy Knabenshue is to sail over Lake Erie in a balloon. Knabenshue made the announcement that with O. Chanute, a consulting engineer of Chicago, who made the aeroplane which the Wright boys of Dayton are using, he will leave Toledo in about two weeks and will land somewhere in the vicinity of Amherstburg, Canada. The start will necessarily have to depend upon the wind.

Mayor Johnson Will Not Preside.
Cleveland, O., Dec. 13.—Mayor Johnson has refused to preside at the meeting Monday at which Senator Tillman will discuss the negro problem. The committee which is preparing the Tillman lecture called on the mayor and asked him to lend his presence to the occasion. He refused to preside, remarking that he had enough troubles right now without hunting more.

Not Guilty of Heresy.
Cincinnati, O., Dec. 13.—Rev. George Clark Cox, rector of the Calvary Episcopal church here, was acquitted of the charges of heresy by the standing committee of the Episcopal diocese of southern Ohio. The case had its origin in a letter written by Rev. Cox to Bishop Vincent, in which Rev. Cox declared that his sympathy was with Dr. Crapsey of New York.

Canned Tomatoes.
East Liverpool, O., Dec. 13.—Mr. and Mrs. Alex. Bryan and three guests whom they entertained at dinner were poisoned by eating tomatoes which had been put up in the fall at the Bryan home. The people were taken violently ill after they had partaken of the food and they are still in a critical condition.

Church Scorched.
Springfield, O., Dec. 13.—While one of the sisters at the St. Bernard's Catholic church in this city was dusting the pews she discovered flames leaping from the organ loft. An alarm was sent in and the fire was extinguished with \$7,000 damage. The origin of the fire is a mystery.

ARCHITECT C. E. HOWELL PAYS VISIT TO NEWARK

Mr. C. E. Howell, architect, of Philadelphia, has been in the city the past week conferring with clients in regard to work. Mr. Howell, who was the winner of the Stewardson Travelling Scholarship in Architecture, has just returned from a fifteen months' trip abroad. He travelled through England, Scotland, France, Spain, Tangiers, Algiers, Sicily and Italy. The greater part of his time was spent in studying the architecture and gardens of England, France and Italy. Since his return he has associated himself with L. B. Holland and they have opened an office at 712 Walnut street, Philadelphia. Mr. Howell has also decided to open an office in Columbus in the spring as he has extensive work in that city, among which is a \$35,000 house on East Broad street and a \$12,000 house on Woodlawn avenue. Mr. Howell leaves for Columbus today, but will return the first of next week. On his return his address in Newark will be at the Hotel Warden.

MAN EMBRACED WRONG WOMAN

FRIENDS PUNISHED OFFENDER UNTIL HIS FACE RESEMBLED A STEAK.

He Resisted Arrest But Without Result—Two Arrested on Peace Warrants.

John Offenbaker, an East Newark man, had his troubles Wednesday night, and would have been justified in the remark made by the man of trouble who said, "If you see any trouble lying around loose, bring it to me, it's mine."

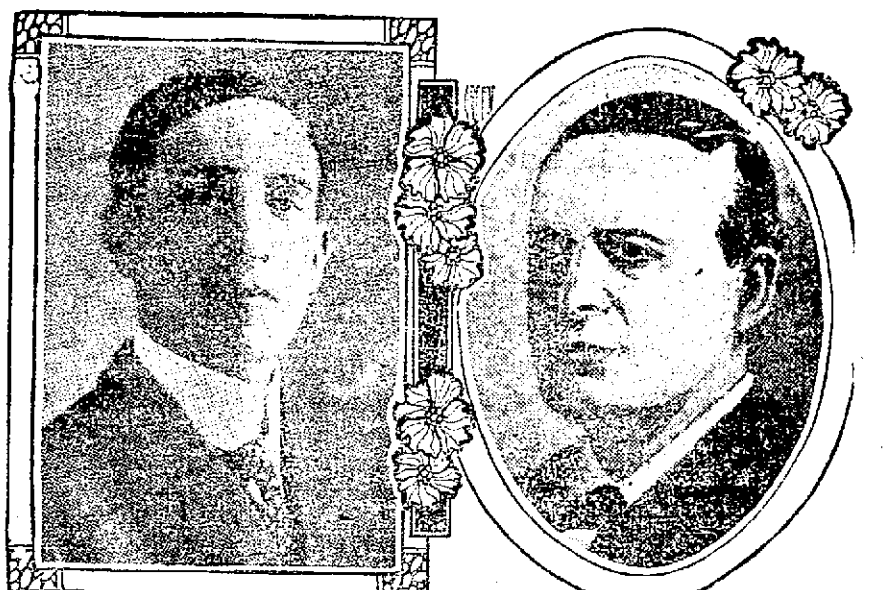

Offenbaker started in by absorbing a considerable quantity of firewater. He then went to the skating rink, where he met several female friends. When he left he took a strange woman for one of his friends and proceeded to embrace her.

Then Offenbaker's life became interesting. The friends of the woman who was thus insulted pounced on Offenbaker and when he was rescued by Officer Charles Hager some time later, he was a mass of wounds and bruises and his face was "leaking" blood in large quantities.

Even then Offenbaker did not want to be "rescued" in the manner employed by the officer and he resisted, but the application of a pair of nippers on his wrist cowed the man and he accompanied the officer to the prison.

Arriving at the city bastille Offenbaker then objected to being locked up with the common herd and struck

LEAGUE PRESIDENT AND RETIRING "DEAN OF BASEBALL."

HARRY C. PULLIAM

A. H. JODEN

viciously at the arresting officer. Fortunately for both the officer and Offenbaker, the blow did not land and the man was finally locked up. In police court the case was continued until 1 o'clock Thursday afternoon.

When Officer Hager received the call to arrest Offenbaker, he had Ed Bowen of Washington street in custody charged with threatening his wife, who complained before Mayor McCleery Wednesday afternoon. While the officer went after Offenbaker, Bowen was left in the custody of the firemen at the East Newark fire station. Bowen will face charges preferred in a peace warrant sworn out by his wife. His hearing was set for Friday morning.

Wesley Suley, a mention of whom was made in Wednesday's Advocate, was arrested Wednesday night. He is charged in an affidavit with threatening to shoot and injure his wife who is staying with her aunt on Crut-

chenden street. His hearing was set for Friday.

One plain drunk drew the usual \$5 and costs Thursday morning. The climax came to Offenbaker's troubles when he was fined \$15 and costs. He pleaded guilty to a charge of being drunk and disorderly.

Thirty bodies pass through the New York morgue each day, and it costs the city \$22.50 apiece to bury them.

PULLIAM ELECTED PRESIDENT OF THE NATIONAL LEAGUE

New York, Dec. 13.—Harry C. Pulliam was re-elected president at the annual meeting of the National league. John Heydler, who for some time has been private secretary to President Pulliam, was chosen secretary and treasurer, the constitution providing that either one or two men may be chosen to fill the three offices. The following board of directors was elected: Barney Dreyfus, Pittsburgh; C. E. Ebbetts, Brooklyn; Garry Herrmann, Cincinnati; Charles W. Murphy, Chicago; George R. Dovey, Boston.

American League.
Chicago, Dec. 13.—At the meeting of the American League the salary of President Ban Johnson was increased from \$10,000 to \$15,000 a year. This action was taken upon the motion of Charles Comiskey of the Chicago club. The question of shortening the schedule to 140 games instead of 154, as prevailed last season, was the principal subject discussed at the gathering, but after a lengthy discussion it was decided that the 154 games were necessary, so the schedule next year will remain the same as last year. Charles W. Somers of the Cleveland club was re-elected vice president of the league.

BETTER CAR SERVICE

East Main Street Line Extended and Troublesome Wait at Switch Will be Obviated.

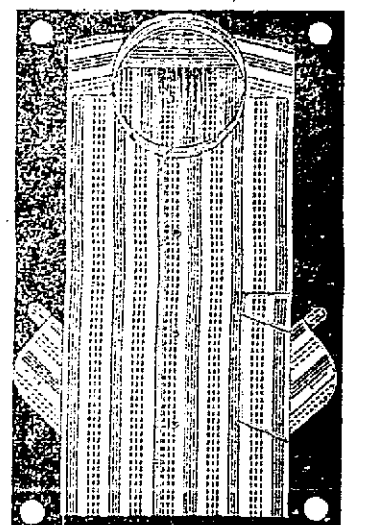

In order to give better service to the street car patrons in the city, the East Main street line has been extended to the private right of way, which lies beyond Hazelwood avenue. Hereafter there will be no lay over on the switch near Metz place, but the car will wait at the end of the line and then go right through to the square. This will do away with the troublesome wait at the switch.

The interurban stops have been changed as follows: Warden Hotel, B. & O. railroad, Pan Handle, Cedar, Curtis, Madison, Hazelwood, and O'Bannon avenue.

VIOLATION OF RIGHTS OF MAN

Seizure of the Nunciature in Paris
Denounced by Vatican.

NOW PREPARING A PROTEST

French Government Not Apprehensive of a Religious War, Militant Catholics Being in the Minority—Efforts to Secure Laymen to Make the Forbidden Declaration.

Rome, Dec. 13.—Cardinal Merry Del Val, the papal secretary of state, is at present engaged in preparing a vigorously worded protest against the action of the French government in searching the archives of the nunciature at Paris. This protest will be handed to the members of the diplomatic body accredited to the Vatican. The secretary of state sets forth among other things that the incident in question is the first instance in history of such a violation of the rights of man.

The Vatican is convinced that the French government, with what church officials call "Briand's blackmailing circular" and the offense against the rights of man committed when the government expelled Mgr. Montagnini and took possession of the papal archives, has placed the position maintained by the church on a sound basis, which insures her the model support of all right-minded people. Referring to his support, Cardinal Merry Del Val, the papal secretary of state, said: "It is essential to victory."

The Vatican has already designated another prelate to take the place of Mgr. Montagnini for the purpose of facilitating communication between the holy see and the French episcopacy and clergy. The name of this man, however, is kept secret to avoid "persecution."

EFFORTS MADE

To Secure Catholic Laymen to Make Forbidden Declaration.

Paris, Dec. 13.—The efforts made by certain members of the chamber of deputies and other disinterested persons to insure a continuation of services in churches in spite of the papal veto, by inducing Catholic laymen in each parish to make the forbidden declaration, have not thus far met with much success. The church of St. John the Evangelist was the only church where such legal application has been made. The indications are against anything which might be dignified by the name of religious war. The prompt expulsion from France of Mgr. Montagnini, secretary of the papal nunciature here since the recall of the nuncio, coupled with the threats to expel recalcitrant clergymen from France, has had a sobering influence. The militant Catholics are in a hopeless minority, and the masses are either indifferent or, except in a few isolated instances, inclined to side with the government.

Five thousand persons gathered in the cathedral at Rennes to listen to Archbishop Dubourg's exhortation to obedience to the pope. There was an enthusiastic demonstration when the archbishop left the cathedral. So far as church property is concerned, the episcopal mansions, the rectories, the seminaries, etc., prelates of all rank are prepared to accept the notices served upon them to move out after protesting and refusing to sign documents of dispossession. It is reported that dozens of cultural or diocesan societies are in the course of formation at the last moment in various departments.

SEPARATED BY QUAKE ARE NOW REUNITED

Milwaukee, Wis., Dec. 13.—A husband and wife, separated since the San Francisco earthquake, and each, until a few days ago, believing the other dead, are to be reunited as soon as the train bearing Mrs. Hattie Politz westward reaches Stockton, Cal. Last summer Mrs. Politz brought the charred body of a man to Oshkosh from California and buried it in Riverside cemetery in the belief that it was her husband. A few days ago she learned that her husband was living on a ranch in California.

Editors Arrested.

New York, Dec. 13.—William B. Masterson, a United States deputy marshal, and William E. Lewis and Henry N. Cary, editors of the New York Morning Telegraph, were arrested in this city charged with "criminal contempt in circulating false and grossly exaggerated reports of the trial of Chester E. Gillette at Herkimer." Masterson was also recorded as an editor of the Telegraph. All three were sent to the court of general sessions.

The annual revenue of the Sue canal in dues was at first \$1,850,000. It is now \$2,000,000.

NOMINATIONS CONFIRMED

No Serious Opposition Shown to Moody and Bonaparte.

FIFTEEN NEGATIVE VOTES

Secretary Taft Sends to Senate a Statement Concerning Deaths at Manila Caused by Inoculation. Algeciras Agreement Ratified—Rayner on State Rights.

Washington, Dec. 13.—Following animated discussion, the senate confirmed the nominations of William H. Moody of Massachusetts to be an associate justice of the supreme court of the United States; Charles J. Bonaparte of Maryland, to be attorney general; Victor H. Metcalf, California, to be secretary of the navy, and Oscar S. Straus of New York, to be secretary of commerce and labor. The opposition to Messrs. Moody and Bonaparte, which had been raised in the senate by a number of Democratic senators, was not strongly pressed at the session. On the viva voce vote for Bonaparte, however, there were a number of negative votes on the minority side, estimated at about 15.

Senators Culberson and Carmack led the discussion against both Moody and Bonaparte; against the former they raised the question of his fitness for the supreme court bench, based upon measures he had introduced as a member of the house. It was again urged against Mr. Bonaparte that his utterances against legislation for the regulation of combinations of capital unfitted him to enforce legislation of that character. Senator Lodge defended the nomination of Mr. Bonaparte by saying that the president would not name a man for the responsible position of attorney general unless he was sure that the nominee was in sympathy with the administration's desire to break up such combinations. There was no opposition to either Mr. Metcalf or Mr. Straus.

In executive session the members of the senate ratified the general act of the delegates of the powers represented at the conference which met at Algeciras, Spain, in April last, to draft a treaty concerning Moroccan affairs. Opposition by the Democrats compelled the adoption of a resolution disclaiming responsibility for the participation of the United States in the program arranged by the conference as to the future of Morocco.

Senator Rayner (Md.) made a speech upholding the state's rights doctrine as involved in the present Japanese question on the Pacific slope. He contended that the inherent rights of a state could not be violated by treaty any more than they could be violated by congress. Caustic criticism of President Roosevelt's position on the Japanese question prefaced Senator Rayner's discussion of the constitutional questions involved. If the military and civil forces of the federal government are to be used by the president, Rayner said, it becomes very important to know the exact power of the president in the matter. Senator Rayner proposed he said, to plant himself on these two propositions: That there is no provision whatever in the treaty with Japan that confers the right that the president speaks of or gives to the government of Japan the privileges it claims in connection with the public school system of California, or of any other state; if there was such a provision in this state or any treaty conferring the right, the treaty would be void without any authority on the part of the United States to make it, and in violation of the constitution and the treaty making power of the government.

Resolutions were agreed to calling upon the president for information regarding the seizure by Mexico of the fishing schooner Silas Stearnes, and directing the secretary of war to furnish information regarding alleged experiments with cholera virus at Manila, resulting in ten or more deaths. Secretary Taft at once made answer to the resolution. He called attention to the fact that Dr. Richard P. Strong, while at one time a surgeon in the army, is at present out of the service and is at the head of the biological laboratory at Manila. He has achieved some remarkable discoveries with reference to cholera serum, and has used it with success on various occasions. In administering it, however, to some inmates of Bilibid prison, without resistance on their part, a bottle of bubonic plague serum probably was substituted for a bottle of cholera serum, with the result that the persons to whom it was administered died. Under the secretary's direction a close inquiry is being made to ascertain the exact nature of the precautions being taken to prevent such mistakes.

Against Fonetik Spelling.

Washington, Dec. 13.—The house of representatives, by a vote of 142 to 25, went on record in opposition to the new spelling as recommended by the president. The debate on simplified spelling held the attention of the house, and a score or more members

NORWAY'S SOVEREIGNS THE GUESTS OF KING EDWARD VIII.

KING HAAGON AND QUEEN MAUD AT THE OPENING OF THE STORTHING IN CHRISTIANIA, NORWAY.

took part. During the discussion Mr. Sullivan (Mass.) remarked that if the president by "imperial ukase" could change the spelling of 300 words of the English language he would have the authority to change 20,000 words or every word in our language.

Denounce French Government. Chicago, Dec. 13.—At a special meeting here of the board of governors of the Catholic church extension society of the United States, resolutions were adopted denouncing the recent actions of the French government as "atrocities" and branding as "outrageous thefts" the seizure of ecclesiastical property and appealing to mankind for redress. Copies of the resolution, which was signed by Archbishop Quigley and the other governors of the society, were telegraphed to President Roosevelt, house of representatives at Washington, the pope at Rome, King Edward and the British parliament and to all the foreign ambassadors at Washington.

NEGROES ACQUITTED

Jury in Atlanta Frees Four Men on Charge of Murdering Policeman Jas. Heard.

Atlanta, Ga., Dec. 13.—A jury in the superior court acquitted four negroes of the charge of murdering Policeman James Heard during the September riots in Atlanta. Those negroes, Marion Peters, Jim Peters, George Lewis and Wiley Brooks, were among about 50 indicted for the murder of Policeman Heard, and it is likely that the charges against the remaining negroes will be dismissed. The inability of the witnesses for the state to identify the defendants had much to do with the result.

SENATOR BROWN LOSES HIS FIGHT DYING OF WOUND

MRS. BRADLEY TO BE ARRAIGNED IN WASHINGTON ON THE CHARGE OF MURDER.

LEAVES RELATIVES IN OHIO

Utah Statesman's Life Prolonged for Several Hours by Injection of Salt Solution.

Washington, Dec. 13.—Arthur Brown of Utah, former United States senator, who was shot in his apartments Saturday afternoon by Mrs. Anna M. Bradley of Salt Lake City, died at midnight at the Emergency hospital. Mrs. Bradley will be arraigned in police court on the charge of murder. Her attorneys will set up the defense that she was justified under the "unwritten law" in shooting Mr. Brown. Max Brown and Miss Alice Brown of Columbus, O., the former senator's son and daughter, were at the bedside when he expired. He had been unconscious for several hours. After the autopsy the body will be taken to Salt Lake City for burial.

Mrs. Arthur Brown, divorced wife of the former senator, also resides in Columbus. Mr. Brown's life was prolonged for

several hours by the injection of a salt solution and by administering oxygen. Death was due to complications brought on by kidney trouble and not to poison as a result of the wound. The shock of the bullet wound, however, had aggravated the affections of the kidneys until these organs refused to perform their functions. One of the assistant district attorneys made another fruitless effort to secure an ante-mortem statement, but Senator Brown refused to talk.

Teachers Wanted in Philippines. Washington, Dec. 13.—One hundred and twenty additional American teachers are wanted in the Philippines for the next school year, according to a cablegram received from Manila by the bureau of insular affairs. Fifty of these are to be appointed at entrance salaries of \$1,200 and the remainder at smaller amounts. The appointees will be selected from those passing the civil service examinations and will go to the islands under two-year contracts.

TRAIN DITCHED

A Northbound Santa Fe Passenger Train Derailed in Oklahoma. None Seriously Injured.

Guthrie, Okla., Dec. 13.—Northbound Santa Fe passenger train No. 18 was derailed while passing through Seward, eight miles south of here. The mail, baggage and express cars, smoke and day coach went into the ditch. No one was seriously hurt. One passenger sustained internal injuries. The train was running slowly when it left the track, which was badly torn up.

MADMAN ATTACKED THREE WOMEN AND POSSE FOUND HIM DEAD

Alvin Poff Became Insane on Street at Lancaster Wednesday Night--Injuries Found on Body Have Not Been Explained--Clothing Torn off.

Lancaster, O., Dec. 13.—Alvin Poff, better known as "Peggy," became suddenly insane on Main street here last night and attacked three women who attempted to pass him at the ball park, near the edge of the city. He flourished a large butcher knife in a threatening manner. The women screamed for help, and the insane man leaped over the fence and disappeared in a large field.

Emmett Deffenbaugh, who was driving by, hurriedly notified the police and all joined in the search. They finally found him lying, face down, with his throat cut and his face and head saturated with blood. An officer asked him what was the matter. The injured man leaped to his feet and rushed toward the men, saying:

"For God's sake, let me die, or I will kill you!"

The officers drew their guns and the man ran away. Then followed another chase, and the posse at last came across his dead body. His head was split open and his clothing nearly torn off.

The additional injuries are unexplainable. It is thought that somebody is responsible for his death other than himself, although he told the officer when he was first found that he had cut himself. The decedent lived in Basil and was employed by Kircher & Co., of Athens, in the laying of brick on a new school house here. He had been complaining of terrible pains in his head for several days, and Landlord Betz, with whom he boarded, had been nursing him all day. He disappeared at 4:30 from the hotel. His father, it is alleged, killed himself several years ago. He leaves a mother and one brother.

MORTON'S PLAN

Meeting of More Than 30 Presidents of Principal Life Insurance Companies.

New York, Dec. 13.—It was announced that President Paul Morton of the Equitable Life Assurance society has called a meeting of the presidents of more than 30 of the principal life insurance companies in the country, to be held in New York city on Dec. 21, to form an association. Among the reasons given by President Morton for the organization are: To prevent extravagance and reduce expenses by encouraging uniformity of administration; to consider whether to advocate or oppose legislation. Mr. Morton said that he was not going to enter into any agreement or combination that will not promote the public welfare.

NEED FOR DRYDOCKS

Rear Admiral Endicott Chief of the Bureau of Yards and Docks, Makes Annual Report.

Washington, Dec. 13.—In the opinion of Rear Admiral Endicott, chief of the bureau of yards and docks, whose annual report was made public, there is urgent need for additional drydocks. He declares that the navy float is further outgrowing the present and authorized facilities in this respect, and that the necessity for docks which may be appropriated for at this time undoubtedly will be keenly felt by the time they could be completed. He calls attention to the need of a large dock at Boston and one small and one large dock at Norfolk, as well as the necessity for another floating drydock capable of lifting a ship of 20,000 tons.

LED BY JEROME

Police Raid Alleged Gambling Den, Bagging 144 Men.

New York, Dec. 13.—Led by District Attorney Jerome, the police raided an alleged gambling house in Tenth street and arrested 144 men, who were charged with having refused to aid the police when a felony was being committed. Another man was charged with running the gambling house. The new tactics of the district attorney were a great surprise, not only to the prisoners but also to lawyers and bondsmen who flocked to the station. Fictitious names are often given following such a raid, but the district attorney instructed the sergeant at the police station to require the bondsmen to make oath that the prisoners' names and addresses as given were correct.

Right to Strike.

Madison, Wis., Dec. 13.—"The right to strike for any cause is clear and fully sustained by the authority. Even a conspiracy to strike, followed by legal damage, is not unlawful if it formed to better labor conditions." This is an extract from the decision of Judge A. L. Sanborn of the United States district court, which was handed down in the case of the Allis Chalmers company against the iron molders' union of Milwaukee. It is probably one of the first opinions wherein a conspiracy might be sanctioned as lawful.

COMMANDER PEARY

And Fifty Other Persons Guests at Dinner Given by Morris K. Jessup in New York.

New York, Dec. 13.—Commander Robert E. Peary, together with 50 other persons, members of the Peary Arctic club and intimate friends, were guests at a dinner given by Morris K. Jessup at the University club in honor of the explorer's safe return. Commander Peary in response to the congratulations of Mr. Jessup is said to have told his friends that if he could get the right sort of ship for another dash to the north pole he believed he could accomplish his object in a year. It is said assurances were given him at the dinner that the kind of ship he wanted would be provided whenever he is ready to undertake another voyage.

HOSTILITY

Between House of Lords and House of Commons Has Now Reached Open Stage in London.

London, Dec. 13.—The hostility between the house of lords and the house of commons has now reached an open stage. The lower house rejected all of the amendments of the house of lords to the education bill by a vote of 416 to 107, the Irish members voting with the government. On a motion by Augustine Birrell, president of the board of education, a committee was appointed to draw up the reasons for the rejection of the amendments.

Passenger Train Wrecked. Newcastle, Pa., Dec. 13.—Pennsylvania passenger train No. 234, eastbound from Ashtabula, O., to Newcastle, Pa., was wrecked at the east end of the Mosier yards, 25 miles west of here, when it struck a passenger engine. The passenger locomotive was overturned. Engineer Alfred of Ashtabula and his fireman jumped and escaped with bad cuts and bruises. The mail car was derailed and Clerk Kidder of Ashtabula was badly bruised. All the passenger coaches remained on the tracks, only one passenger being hurt, and he but slightly.

STANDARD OIL COMPANY

AN HONEST GRAFTER

A Glimpse Into the Future of Municipal Ownership.

A Thumb Nail Sketch of a "Practical Politician"—The Profits of an All Around "Servant of the People, Who Seen His Opportunities and Took 'Em."

"Honest graft" will reach its highest level when, as predicted by the enthusiasts, the principles of municipal ownership are accepted by New York and the city controls the trolley lines, the electric light and gas works and all the ferries as well as the water-works and the police, the fire and the street departments.

Then such patriots as George Washington Plunkitt, for many years organization leader of the Fifteenth district in New York, will reap rewards of greater magnitude than they have ever been able to gather under the present order of things.

Perhaps you have never heard about Mr. Plunkitt's "honest graft" schemes. He told about them himself in a book published last year, which was introduced by a paragraph endorsing him as a "veteran leader of the organization," signed by its greatest chief.

Plunkitt was sore because there were some objections to graft being made out of the city by men like him, and in the first chapter of his book he uttered a vigorous protest. "Blackmailin' gamblers, saloon keepers, disorderly people, etc.," he admitted to be wrong. That was "dishonest graft."

"But," he added, "there's an honest graft, and I'm an example of how it works. I seen my opportunities and I took 'em."

Mr. Plunkitt's explanation of how he did these things will illuminate the possibilities of future municipal ownership days, if they ever come.

After elucidating the ways he was "tipped off" at various times by members of his party—the party in power—when new bridges, new parks, new streets were to be opened, so that he might invest in real estate likely to rise in price from the improvements contemplated, he adds: "I haven't confined myself to land. Anything that pays is in my line." Then he gives a specific instance:

Learning that the city was about to repave a certain street and so would have several hundred thousand old paving blocks to sell, he was "on hand to buy," and he "knew just what they were worth." But a newspaper "tried to do him" and got some outside men from Brooklyn and New Jersey to bid against him. Mr. Plunkitt's own words tell the story best:

"Was I done? Not much. I went to each of the men and said, 'How many of those 250,000 stones do you want?' One said 20,000, and another wanted 15,000, and another wanted 10,000. I said, 'All right; let me bid for

the lot, and I'll give each of you all you want for nothing.'"

"They agreed, of course. Then the auctioneer yelled, 'How much am I bid for these fine paving stones?'"

"Two dollars and fifty cents," says I.

"Two dollars and fifty cents!" screamed the auctioneer. "Oh, that's a joke. Give me a real bid."

"He found the bid was real enough. My rivals stood silent. I got the lot for \$2,500 and gave them their share. That's how the attempt to do Plunkitt ended, and that's how all such attempts end."

It is hardly necessary, in the light of this authentic statement of "honest graft" workings, to enlarge upon the extended opportunities that would come to the men of the Plunkitt stamp were the dream of municipal ownership to come true. Plunkitt says "most politicians who are accused of robbing the city get rich the same way" he did.

"They didn't steal a dollar from the city. They just seen their opportunities and took them."

While in the legislature Plunkitt introduced the bills that provided for the outlying parks of New York, the Harlem river speedway, the Washington bridge, the One Hundred and Fifty-fifth street viaduct, additions to the Museum of Natural History and many other important public improvements. He is now a millionaire. Under the proposed order of things, with city control of everything, he might become a billionaire.

Under municipal ownership of all public utilities in New York—and in most other cities in fact—politicians like Plunkitt, who at different times has been elected state senator, assemblyman, county supervisor and alderman by his fellow citizens, besides serving as police magistrate for one term, and who boasts of his record in filling four public offices in one year and drawing salaries from three of them at the same time, would flourish like a whole grove of green bay trees.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once become infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herculide kills these germs and stimulates unhealthy hair to abundant growth. Herculide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 25c. in stamps for sample to The Herculide Co., Detroit, Mich.

COOK'S RECORD CLIMB

Incidents of the Doctor's Ascent of Mount McKinley.

WITHOUT SHELTER FIVE NIGHTS.

With One Companion, He Found a Trail Over a Glacier Which Comes Down the Mountain's Side—Both Bled From Ears and Nose—Rain Short of Food.

Dr. Frederick A. Cook of Brooklyn, the first man to climb Mount McKinley, in Alaska, the highest peak in North America, returned to his home, 670 Bushwick avenue, a few nights ago. He left behind him in a tin box 20,000 feet above the sea level his name and that of his companion in the achievement, Edward Barville, says the New York Sun.

Two voyages to the arctic with Commander Peary in 1891 and 1901 furnished Dr. Cook with valuable experience in making his preparations for the attempt at Mount McKinley. When early last spring the plan was formed to climb the mountain Dr. Cook planned his supplies to fight arctic conditions. Everything was in as small a compass as possible. His tents were made of Shantung silk. They weighed only three pounds, and each tent covered two men. Eiderdown bags which could be converted into overcoats on occasion were carried, as were canned foods and desiccated fruit.

Those who accompanied Dr. Cook from New York and those who joined him at Seattle left there on May 16 and reached Cook's inlet, Alaska, on May 28. There they procured twenty horses and sent them by Indian guides across the country to the mouth of the Yentna river. The expedition had taken with them a gasoline launch forty feet long and driven by a twenty-five horsepower engine. In this craft they made their way 120 miles north of Cook's inlet, where they were within sight of the mountain.

Mount McKinley is in the middle of the main Alaskan range of mountains. The Indians themselves say that it had never been climbed. Impassable marshes and untracked wildernesses surrounded it on every side. A sally was made to the southwest side of the mountain. There three passes over the lower ranges at the base of the peak were successively attempted, but in each instance it was found that the going was too precipitous to admit of the pack trains making any progress. After several attempts the expedition gave up this line of attack and crossed over sixty-five miles of tundra to the southeastern base of the mountain.

Here the attempt looked even more hopeless, for 1,500 feet of perpendicular cliff intervened between the highest spur range and the lowest level of Mount McKinley. Since it was now the first week in August and it was believed that it was too late in the season to go to the western side of the mountain, the party abandoned the effort to climb. The expedition split into groups and explored the surrounding territory for geological specimens.

Dr. Cook and Edward Barville in

going about to the east discovered a series of glaciers flowing down through narrow gorges in the side of the main peak. These avenues seemed to them to offer a solution of the problem of ascent, and, though they had parted from the rest of their companions only on a casual journey of exploration, Dr. Cook and his comrade determined to have a try at the mountain itself.

They had with them about fifty pounds of equipment each, which included food enough to last them twelve days. Following along the sides of one of the glaciers, they began the ascent of the mountain on Sept. 8. Their task was made easier by the fact that the rains now ceased and clear and cold weather froze the snow and made the bridges over the crevasses in the glacier strong.

The first 5,000 feet of their ascent had to be made by cutting footholes in the icy side of the precipitous cliff. No place level enough to permit of the erection of the tent could be found in the first five days climbing. They were forced to burrow into the ice and take what cold comfort they could in their eiderdown sleeping bags. At 14,000 feet on the sixth day of the ascent they found a suitable place to pitch the tent and stayed there for one comfortable night. They built a snow house as a place of refuge in case storms should drive them down from the higher levels of the mountain.

At 16,000 feet both men felt the effect of the altitude and the severe cold. Their heart action was so violent as to induce great weakness, dizziness and bleeding at the nose and ears. The glare of the snow had brought on snow blindness. Their provisions, too, were running low. Though very weak, they determined to press on.

On Sept. 16 they climbed on the inside of the two peaks, which split the summit of the mountain in half, to the very top. They arrived at the highest point in North America at 10 o'clock in the morning. The cold was so intense that they were numbed almost beyond activity. They could hardly breathe because of the rarefied air. Yet Dr. Cook made measurements with the instruments which he had brought and certified his findings by scientific calculations. The altitude registered was 20,300 feet.

The two men took a tin box from their supply case and inclosed in this a record of the date, the altitude and

EX-JUDGE GILL DIES IN COLUMBUS

FORMERLY HAD SEAT ON COMMON PLEAS BENCH IN NEWARK DISTRICT.

Served With Ohio Regiment and Had Fine War Record—Practiced First in Delaware.

John S. Gill, former common pleas judge in the Newark district, a well known member of the Franklin county bar, died at his home, 390 Bryden Road, Columbus, after an illness of eight months.

The funeral will take place Friday afternoon at 2 o'clock. Dr. A. D. Hawn of Delaware, assisted by Rev. G. H. Brewer of Columbus, will officiate.

Judge Gill was born May 9, 1812, at Darby Plains, near Milford Center, Union county, Ohio. He was educated in the public schools, and at the age of 20 years he enlisted in Company J, One Hundred and Twenty-first regiment, O. V. I.; served till the close of the war, and was mustered out of service with his regiment June, 1867, at Washington, D. C. He was a non-commissioned officer and for the last few months of service was regimental postmaster.

He was in every battle and every campaign in which his regiment participated, except the campaign for the relief of Knoxville after the battle of Mission Ridge, he being at that time in a hospital at Nashville, under treatment for a wound received Sept. 20, 1863 at the battle of Chickamauga, Ga., under command of General Steedman.

He was with General Sherman in the Atlanta campaign in the summer of 1864, and his march to the sea, through the Carolinas; also in battle of Bentonville, N. C., March 19, 20, 21, 1865.

After returning home he engaged in farming and teaching.

In 1874 he entered the law office of Reid & Powell of Delaware as a law student—was admitted to the bar in 1876, and practiced in Delaware.

In the fall of 1887 he was elected a representative to the Sixty-eighth General Assembly of Ohio from Delaware county, as a Democrat, there having been but one other Democrat elected to that office in that county since the close of the war.

In the fall of 1891 he was elected judge of the court of common pleas in the first subdivision of the Fifth judicial district of Ohio, from the counties of Delaware, Licking and Knox.

CHRISTMAS PACKAGE HOW TO MAIL IT

If you are sending packages by mail during this holiday time it is well to remember a few things to insure promptness and accuracy in delivery.

1. Don't include a letter or any writing in the package. If you do, it subjects it to letter rate postage, which is two cents for each ounce or fraction thereof.

2. Wrap packages in white or buff colored paper so that the written address is clear. Be sure to write the name, town or city and state, giving street number, if possible, very plain, to enable postal clerks to easily read it. In the upper left hand corner of the address side, write "From" (giving your own name and address). Don't seal the with a string.

3. Circulars, books, photographs, etc., one cent for two ounces or fraction thereof.

4. Merchandise not included in the third class, one cent for each ounce or fraction thereof.

5. Valuable packages should be registered. Registry fee, eight cents additional to regular postage.

Write the address on the package, never use tags.

J. W. COLLINS & SON SPRING A NEW CIGAR.

Present Wadsworth Bros.' Chico Which Sells Like Wild Fire.

J. W. Collins & Son recently introduced a new brand of cigars—Wadsworth Bros. 'Chico. In size and quality they are the style of a ten cent cigar, but retail at five cents straight.

Collins & Son aim to give the smokers of Newark the best goods possible, and they believe that in pushing and recommending the Chicos they have done a good thing for people who like a good cigar at reasonable price.

The Chicos are made from a long clear Havana filler, and burn with a solid ash. In flavor and fragrance they cannot be told from cigars that retail at ten and fifteen cents. The fact that they are today the favorite smoke of the most fastidious trade, people who heretofore smoked nothing but ten and fifteen cent cigars, shows that this is true. Prove it for yourself, however, by trying a Chico. Put down a dime at Collins & Son's cigar counter and see if the two cigars you get are not better than any cigar you ever smoked before for twice the money. D6,11,1.
